

IWSC PRODUCER TROPHIES

QUALIFICATION CRITERIA

All entrants to the IWSC awards have an opportunity to qualify for our most prestigious accolades, our Producer Trophies.

- To be shortlisted, producers will have to have entered a minimum of 3 entrants within a given category.
- If an entrant submits entries across different categories (e. g. a distiller produces a gin and a vodka) the scores for vodka are disregarded when considering the Gin Producer Trophy.
- These entrants must all win a medal at our judging.
- If the producer has submitted 8+ entrants within a category, a minimum of 90% must achieve a medal.
- The medal tally must include a minimum of two Gold medals, or one Gold Outstanding medal.
- The shortlist for all Producer Trophy categories is at IWSC's discretion.
- Not all categories may be awarded each year.
- Additional categories may be included based on trends within award entrants. This allows IWSC to maintain the integrity and status of each trophy, ensuring trophies are not awarded simply by default in any given competition year.
